PRESS

The New Times of Project: Mooncircle... "The Heart On The Right Spot" presents the mind through music coming from the heart. Meaning the truest and purest form of artistic expression without sacrificing the artform.

This compilation has brought together many different artist from across the globe that are here to get heard and together make a statement through their music. Tracks like "Kill The Music" from CYNE, "Mind Pollution" from Seven Star and "Dilligence" from Mathematik are more like statements representing the Hip Hop Culture in 2007. Artist Epstein does a remix of Jahbitat's "Shutterspeed" for PMC. Mr Cooper steps up his own game and through "The Heart On The Right Spot" presents the newest song "Work Progressions" from his upcoming second album. 40 Winks, from the now defunct label M3rck records (RIP), is also added to our roster delivering that sound classic to M3rck records with his track "Half Wonder". Simon of Jahbitat brings new organic sounds out from the Canopy between the Jungle of Barcelona Nights with "Bloodclouds & Eagles". Manuvers was in his country of origin, Chile, and he recorded with Hordatoj and Senciyo for a track called "No Es Tarde" which also features Dave Ghetto. This version of "No Es Tarde" is an exclusive version to the PMC Compilation not to be found elsewhere.

"The Heart On The Right Spot" is a project of friends and artist a like, too. Acts like Lackluster (M3rck), Strand (CCO) or Antti from Styge Rec., Set In Sand, Omniscient and many more...

Rumpistol (from Rump Rec.) does a remix from Prefuse 73 & V8. Pablie &

Dday One are the Next Chapter as Solo Releases. All Tracks are exclusive and just available on this Release!
