**PRESS**

Even in the land of the rising sun, during the last months the enthusiasm for eccentric rhythms has increased. More and more young beat maker in Japan emulate their models **J Dilla, Flying Lotus or Hudson Mohawke**. This new generation of beat smiths understood Hip-Hop not as a mere pose, but as an aesthetic principle, in which it is explored, where the boundaries of this music style lie. The artistic crucial questions are therefore: How can you make known subjects in other contexts? How abstract can it be? Some of these emerging artists, we can now gather on this download Compilation. It's a good way to become familiar with these extraordinary artists. *So the Compilation shows the wide range of this emerging beat music scene, the originality of each artists.* The title of the records tries to reduce very different types of artists to a common denominator: *Finest ego*.

The compilation includes **BudaMunk, a.z, Daisuke Tanabe, The Astronotes, Dj Olive Oil, FERRARI, RLP, SATO, Ogiyy, ichiro\_, Eccy & Himuro Yoshiteru.**
