PRESS

After last year`s release of his debut full length album entitled "*Death Star Droid*" Berlin stromtrooper **Robot Koch** kept himself hella busy. In 2010 alone he dropped the new **Jahcoozi** album "*Barefoot Wanderer*" on **Bpitch Control**, released his EP "*Listen To Them Fade*" on **Project: Mooncircle**, did a bunch of remixes and productions for both major and indie artsits and played stunnig live shows everywhere from *Low End Theory* in LA to the *Sonar Festival* in Barcelona.

And now he`s back to do some serious damage with his 2nd LP "*Songs for Trees and Cyborgs*".

The album shows Robot`s versatility as a producer – it mixes and blends fresh, forward thinking electronic beats with heartfelt melodies and organic live instrumentation. On choice tracks Mr. Koch teams up with the likes of **Boxcutter (Planet Mu)**, **1000 Names (Black Acre)**, **Doshy (Robox Neotech)**, **RQM (Baby Sumo)** and **Graciela Maria (Project Mooncircle)** to present the point where dubstep, hip-hop and its myriad of influences fuse into a kaleidoscopic collage of sounds.

Artwork by **44 Flavours**.
