PRESS

From a laments perspective you can call this **Jahcoozi's Robot Koch** meets **Scienz of Life's John Robinson**. However we here at **Project: Moon-circle** like to see this as two dynamic forces of nature coming together in parallel universes, delivering cosmic opted sonics with science-fiction narrative conventions in a metaphysical tone. *Robot Robinson is the FUTURE from Earth to Mars to Venus to Jupiter and Beyond, this project spells out the attempts to bring a different pitch of vocals to the world of Electronic Music.* Robinson being no stranger to the scientific lyrical approach along with Robot's evolutionary voyage prone soundscapes this one is a sure shot! The Future of Music is in Good Hands.

All tracks produced by **Robot Koch**. All lyrics by **John Robinson**.
Artwork and original paintings by **Ima One** (Japan). Design by Gordon Giesecking.
